### And What Have You

By BOB CRAIG

If the crowd at the scrimmage here Friday night is any indication the Pipers first game here Friday should draw a big crowd. We hope that this is the case.

The football team, the band and the pep squad and their coaches and sponsors have put in a lot of time getting ready for the season opener and these kids are more than deserving of your support.

While we realize that you must expect a lot out of people, whether grownups or kids, before you can get very much, we are sometimes amazed at the attitude of high school sports fans.

Sometimes you wonder if these fans think that they are paying the kids to perform for them. A boy on the field makes a mistake and to listen to the fans you would think that it was done on purpose. We seem to forget that these boys have a lot more to lose when they make a mistake than the fan.

While on the subject of football and fans, we would like to remind everyone again that as hosts, we owe the visiting team, fans, and officials respect. If the day ever comes that the sportsmanship in the stands equals the sportsmanship on the field, then the whole athletic program will be better.

We have been hearing murmurings over the state about the new award program set up by the University Interscholastic League that goes into effect this year. But we expect this to pick up to a strong tempo when more people realize what this has done to the high school award program as we have always known it.

It appears to us that every time the U. I. L. makes a change to stop some abuse, it always goes overboard in the other direction. Because of high costs there was probably a need for some change in jackets and other awards, but one award for three years of high school!

This will probably end such things as B Team jackets because what boy will accept a B Team jacket his sophomore year when he can hope for a varsity jacket the next year. No doubt this will save the schools a lot of money, but this money saved is not in most cases tax money but rather money derived from fans watching students perform.

This rule was voted on by the superintendents of all of the schools in Texas and in defense of our Superintendent, Mr. Cook, he voted against it, but the measure was passed by a vote of 511 to 397.

On the surface it might appear that there would be no problem with a boy receiving a jacket the first year he lettered and then getting a new letter each year because most of the jackets don't wear out; but what happens when the boy grows. Not too many high school boys can wear the same size clothes one year, much less two or three.

We suspect that all of this will be a short lived problem when the public realizes the impact. It is likely that a number of those 511 superintendents that voted for the change will see fit to vote the other way if the matter comes up again, and it likely will.

We received a copy of the report by the Governor's Committee on Public School Education that was released this past weekend but have not had the chance to study it. But we have read the newspaper reports on it and it would appear to us to hold a great future for Texas if most of it can be enacted into law.

It would appear that the hardest two things to accomplish in it will be to overcome the opposition to change and raising the money for it.

C. L. Howard, finance chairman, will coordinate the drive along with Mrs. Jack Wicker, chairman of the Leaders Association.

Anyone missed in the Sept. 17-18 drive may make a contribution to Jerry Waggoner at Waggoner Drug, Mrs. H. L. Mehaffey at Farmers and Merchants National Bank, or Howard at Howard Drug.

## Money Needs Told for Cattlemen's Round-Up

With the eighth annual Cattlemen's Round-Up for Crippled Children coming up Sept. 30 and officials already "beating the bushes" for donations, Dist. Judge Raleigh Brown, president of the benefiting West Texas Rehabilitation Center's board of directors, admits to being asked one question more often than any other.

The question is, "What ever happened to all that money?"

In the case of the WTRC, everyone knows that "all that money" is the approximately \$170,000 which kindhearted supporters donated in a three-week period last January when it was announced that the WTRC might have to be closed because of severe financial problems.

"That situation was a result of trying to give more free treatment than we had room for, or our budget would allow," Judge Brown said. "The people understood, and came to our aid. Our situation now isn't anything like last winter, but we are still depending on a very good Round-Up to keep us in the black."

Since the Round-Up was founded in 1960, it has annually provided about one-

third of the non-profit Center's operational budget. The rest comes from memorial gifts and various United Funds, Judge Brown explained. So, what happened to "all that money?"

The first \$66,000 went to pay off loans from three Taylor County banks, loans which had failed to avoid the financial crisis when several big gifts, which officials had been counting on, failed to materialize right at the end of the fiscal year.

The next \$28,000 went to providing matching funds for a federal grant to construct a new physical therapy wing to provide sorely-needed treatment space for the Center's ever-increasing number of patients. While the majority of the new wing is still under construction, officials hope to be able to get into seven new treatment rooms by next week, Judge Brown said. During the summer months, therapists have continued to give treatment whenever space could be found, in offices, halls, and sometimes outside the building.

The next \$30,000 had to be used to pay other debts left

over from the 1967 budget, and the January payroll.

The rest of the donated money, spread out over an eight-month period hasn't gone as far as it was supposed to, because other projected incomes has been less than expected. Judge Brown said, pointing out that the Easter Seal drive netted only \$3,000 instead of the usual \$10,000 to \$12,000.

"What it all boils down to is the fact that we need a bigger and better Round-Up than ever," he said. "We don't believe the cattlemen will let us down."

In the next few weeks, volunteers will cover the state in donated vehicles and trailers, picking up donated stock and transporting them free of charge to Ranchers and Farmers Livestock Commission, site of the September 30 cattle auction.

Anyone wishing to donate to the Round-Up is encouraged to contact his area chairman or the West Texas Rehabilitation Center, 4601 Hartford, Abilene, or telephone area code 915-692-1633, Judge Brown said.

## Pipers to Host Rotan Friday

The Hamlin Pied Pipers will open their football season here Friday night as they play host to the Rotan Yellowhammers. Kickoff time is 8 p.m.

Coach Joe Youngblood said Monday that of the three boys that have been on the injured list only one would see any action Friday night. Mike Brown, who along with Charlie Shira, was injured in the Andrews scrimmage will see only limited action. Shira is not expected to play. The third injured player is Jerry Braley, who injured a knee before the Andrews practice session, will also be held out.

Coach Youngblood pointed out to the Booster Club Monday night that these boys make up about half of Hamlin's starters back from last year and are being missed a great deal in these early sessions. But he also said that the coaches have been well pleased by the work of some of the less experienced boys who have stepped in and taken their places.

Coach Youngblood reported Monday that the varsity elected its third captain this week. Donnie Smith was selected by the players to serve with Ernest Ledbetter and James Asher who were elected last spring.

He also announced the following probable starting lineup for Friday night: Asher at quarterback, Gary Smith at halfback, Robert Bolden at tailback and Smith at fullback. In the line will be Don Bockman and Ledbetter at end, Hector Orona and Mike Young at tackle, Gil Lain and Bill Johnson at guard and Jackie Williams at center.

On defense Bockman, Williams, Johnson, Lain and Young will be replaced by Ronnie Nelson, Spencer Ford, Bill Hodnett, Gary Maberry and Howard Williams.

Being the first game for both teams, the local coaches know very little about the Rotan team other than what they could see when Rotan scrimmaged Jayton last week.

Coach Earnie Reusch, who

scouted the scrimmage, reported that the Yellowhammers are thin this year in numbers but appear to have a fine quarterback who throws well. They operate from a Wing-T

and a Wing-I formation and are stronger in the air than they are on the ground.

He reported that they appear to average about 160 pounds.

# Neinda Philosopher Finds It Hard to Believe The Russians Believed They'd Be Believed

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One sizes up the Russian-Czechoslovakia situation this week, more or less.

Dear editor:

Finding out what the people think and then saying it for them is supposed to be one of the finer points of successful politics, but knowing what they'll believe and won't believe ought to rank near the top too.

This occurred to me after I finished reading a two-weeks-old newspaper reporting on the Russian invasion of Czechoslovakia.

According to it, the Russians sent their tanks and troops storming into Czechoslovakia about 3 o'clock one morning, captured the whole country, made off with the President and other officials, and announced to the world

they'd done it because the Czechs had asked them to.

I am afraid the Russians have been talking to each other too long. They must have been the original inventors of, along with the airplane, the submarine, the steam engine, and the ABC's the credibility gap.

It's as though a bunch of robbers, having held up the bank and made off with the money and the president and cashier, announced to the world they'd done it because they'd been invited to.

It'd just be hard for the public to believe this, and even harder for it to believe the gunmen believed it would believe it.

But if the gunmen did believe the public would believe them, then obviously humor has been set back a thousand years.

I'll admit I don't understand

the Russians, but on the other hand I doubt if the Russians understand you and me, and it may turn out they don't understand the Czechs either.

Yours faithfully,  
J. A.

## Library Workshop Planned In Abilene Monday Morning

A workshop will be held at the Abilene Public Library, Abilene, on Monday, Sept. 16, at 9:00 a.m. for persons interested in libraries. The topic for discussion will be a bill prepared for presentation to the 1969 session of the Texas Legislature. The legislation will be sponsored by the professional organization, the Texas Library Association.

The Abilene Public Library and the Texas State Library's Field Services Division are sponsoring the September 16 workshop. A complete study of the legislative proposal will be undertaken. # FROM THE FILES . . .

51 YEARS AGO  
(September 14, 1917)  
1918 files missing  
The new school term of the Central Nazarene University will begin on next Tuesday, Sept. 18.

It is hard at this time to determine just how heavy the enrollment will be, but quite a number is expected. The war time and the drouthwill of course have its effect on all schools this year. But our schools must go on, even though it may mean a great hardship on parents and pupils.

During the summer the main university building has had a great deal of work done on it and in a hundred different ways the building is more attractive than ever before.

Although there has been quite a little rain and showers in different parts of the country this week, cotton has continued to arrive. Up to Wednesday afternoon at three o'clock there had been weighed in the local yard 46 bales.

The price of cotton this week has ranged from 20.25¢ to 20.80¢. Seed still sells at \$60 per ton. Cotton fields have come out very much since the rains but as yet it is hard to tell what will be made. The most conservative estimates place the Hamlin cotton yard at 2500 bales. This is extremely low compared with three years ago when we got 18,500, two years ago 15,000, and last year 9,000.

Some good fields of maize can be seen and most of the young feed crops are giving much promise.

Some few farmers who planted the famous Pinto bean in the spring say that they are putting out again and as fine fresh beans as can be seen in the spring time have been placed on the market.

Owing to the fact that the Orient trains pass through Hamlin at 9:45 a. m., for a time or two the Hamlin Herald's did not get out on McCaulley route until Saturday. This has been corrected now by the Postmistress of McCaulley by holding the carriers until the mails arrive from the north. This may be a little hard on the carriers, but the Herald appreciates it and we are sure the patrons on the routes also feel the same way. Hence we extend our thanks both for us and for the people thus served. The Herald will be there unless something unusual happens to prevent.

This week the Herald has printed the Fall directory of the Hamlin exchange of the Southwestern Telegraph & Telephone Company. A job like this is very tedious and requires considerable time, but to have it ready so that the farmers can get the new copies on Saturday we have not had the time to give to the news side of the Herald this week.

25 YEARS AGO  
(September 10, 1943)

It looked like the hot summer and three months of drouth had ended Sunday afternoon. A business-like cloud formed in the west-southwest and before one could say Jack, rain started in the area and soon a roaring hail set up that resounded like a rumbling train.

Some hail fell in the south part of Hamlin and quite a nice rain, but farther north in town and north in the country it was lighter and lighter. In the areas in the Plaster Mills, McCaulley, Neinda communities there was great damage from hail. Cotton suffered badly. Some farmers report all their cotton

ruined, some just a few bales knocked out.

The rains were very local, as was the hail. Some places got as high as two inches of rain, and near by others just about a quarter or half.

Next Tuesday night, Sept. 14th, at 7:30, Hamlin Lions will entertain their ladies and the Lions District Governor, Joe E. Childress of Abilene, who will be the guest of honor at the chicken barbecue party on the Lakes. The program will include musical numbers by the Lions.

Sugar Stamps Nos. 15-16 good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration board for more if necessary. Shoe Stamp No. 18 (1 pair) is valid through October 31st.

One of the greatest money-lending campaigns ever staged in this country is now starting off in full swing--- for example Jones County individuals have a quota of \$1,146,400.00. In this Hamlin-Jones County Area, dollars have been rolling into almost every person's arms all the past year. It is not like it was in the dry years of 1917-18-- we bought bonds then and it sounds reasonable that the quotas above are not too high.

Anson's quota is \$286,550; Hamlin's quota is \$286,550 and Stamford's is \$458,500 and all the balance of the county is \$114,640.

That sounds like a pretty fair distribution. The way to get the job done is to start buying, just like the way the men say they want it done on the battle line-- start moving and forward to victory.

10 YEARS AGO  
(September 11, 1958)

T. C. Blankinship, vocational agriculture instructor at Hamlin High School, will be the poultry judge at the West Texas Fair beginning this week-end at Abilene.

Entries in the livestock, poultry and rabbit divisions of the fair to be staged at the Taylor County Exposition Center in Southeast Abilene, had reached a total of 920, last week-end, according to H. A. Travis, general superintendent.

Increased sales and earnings in the third quarter improved the nine-month report of the Celotex Corp. Henry W. Collins, president said this week in a release to the Herald. He pointed out that improved business in the third quarter brought that period's earnings to \$1.03 a share as against \$1.01 in the last three months last year.

Members of the Beta Theta chapter of Beta Sigma Phi sorority opened their fall season Saturday afternoon with a luncheon at the Hickman Cafe in Aspermont.

Members of the Hamlin Business and Professional Women's Club met in the first meeting of the new club year for a dinner and program Tuesday evening at the primary school cafeteria.

Coach D. C. Andrews' Hamlin High School Pied Pipers slipped by Eastland Friday night 20 to 14 to take a thrill-packed tilt from the Mavericks on their home gridiron.

The Pipers were trailing twice during the game and held a tie for a while before salting away the game on the first play of the fourth quarter.

Hamlin High School's "B" football squad will open its 1958 season tonight against the Haskell "B's" on the Pied Piper stadium beginning at 7:30 p. m.

## BIBLE VERSE

- Where may this warning be found?
- What is the meaning of the name of the book in which it is found?

- To whom was it given?

### Answers To Bible Verse

- Deuteronomy 8:11.
- The "second law."
- By God to Moses.
- By Moses to the children of Israel.

## Importance of Quality Seed Stressed by Agent

Fall planting of small grains, flax and winter legumes is near at hand. The importance of using high quality seed of adapted varieties should receive major attention, says County Agent Kirby Clayton.

Although the cash outlay for seed is a relatively small part of the total production cost in most crops, decisions on variety selection and source of seed can greatly affect returns. Since certified seed are our principal source of varietal purity in fall seeded

crops, you should use the best possible seed of suggested varieties, advises the county agent.

There are many varieties of each crop, and they differ greatly in their yielding ability, height, disease and insect resistance, date of maturity, color of seed and other characteristics. For any individual farm in any particular year there is a variety that will do better than other varieties.

For additional information on small grain variety performance test in 1967 call by the agent's office and ask for a copy of the 1967 Jones County Result Demonstration Handbook.

## WONDERFUL FEELING!

"Oh! I'm not really steering, but my friend has permitted me to sit here, and I have really had a good time just pretending."

Does this remind you of times when you have "Pretended"? Remember when some friend allowed you to sit behind the wheel of a boat or a new car and . . . well, you know the rest.

Today we are still pretending, because nothing really belongs to us.

The Bible Says . . . *"The earth is the Lord's, and the fulness thereof; the world, and they that dwell therein."* Psalm 24-1.

According to this, God is truly our friend and permits us to use the things of this world. For these things, and God's greatest gift, his Son, we should attend worship services each week and give thanks.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

## Hamlin High Happenings

## Piper Patter

by Beth Craig  
Patty Cowan

Class elections climaxed the second week of school, and the first ballgame is expected to be the high point of this week.

The senior class elected Jo Lynn Johnson reporter to complete their slate of officers already selected. Other officers are Mike Brown, president; Gil Lain, vice president; Dianna Crowley, secretary; and Jerry Elliott, treasurer. Mrs. Youngblood, Mrs. Jayroe, Mr. I. J. Starr, and Mr. Milburn Wink are class sponsors. Class parents are Mr. and Mrs. J. O. Murphree, Mr. and Mrs. Johnny Bryant, Mr. and Mrs. W. T. Johnson, Mr. and Mrs. Gerald Young.

During the class meeting seniors selected four homecoming nominees to be voted on by the student body. The nominees are Marilyn Fudge, Jane Hymer, Patti Murphree, and Cheryl Walton.

Bill Hodnett was elected to lead the junior class. He will be assisted by Spencer Ford, vice-president; Jana Ferguson, secretary; and Gary Smith, reporter. Mrs. Fowler, Coach Moore, and Mr. Hartgrove will serve as class sponsors. Class parents are Dr. and Mrs. M. L. Smith, Mr. and Mrs. C. B. Owens, and Mr. and Mrs. S. C. Ferguson, Jr.

Sophomore class officers are Greg Perrin, president; Dwayne Miller, vice-president; Sharon Hastings, secretary; Toni Casey, treasurer; and Darrell Craig, reporter. Mr. Tim Jones and Mrs. Joe Wayne Carter are class sponsors. Class parents are Mr. and Mrs. Lee Hastings and Mr. and Mrs. Bob McKissack.

Guy Clifton was elected president of the Freshman Class. Other officers are Jackie Warner, vice president; Jimmie Lou Bishop, secretary; Shelly Holtz, treasurer; and Tara Colley, reporter.

Mrs. Scott and Mrs. Brown are sponsors. Class parents are Mr. and Mrs. Floyd Clifton and Mr. and Mrs. John Holtz.

The student council met Monday night for a regular meeting. Debbie Meyner and Rodney Rackley are the new freshmen representatives. Plans for the district meeting to be held here were discussed.

Pat Perrin, Beth Craig, Mike Young, Gil Lain, and Mr. Wink attended a planning meeting for the Oil Belt Association of Student Councils Tuesday in Abilene. Plans were made for the fall meet-

ing to be held here in November.

The devotionals this year are under the direction of Mike Brown, Joey Duncan, and Beth Craig. Each Wednesday morning a short devotional period is held in the cafeteria. Those attending voluntarily the past three weeks have heard devotionals by Mike Brown, Beth Craig, and Robert Bailey. Special music has been by Caron Jackson, Latrese Williams, Terry Gregory, a trio; and Joey Duncan.

This being election year, the senior class in cooperation with the civics class has formed a Young Democrats and Young Republicans organization. Officers for the Democrats are Mike Brown, president; Linda Nichols, vice president; and Patty Cowan, secretary. Gil Lain will lead the Republicans as president along with Jo Lynn Johnson, vice president; and Mike Young, secretary. Plans are being made to sponsor a float in the Homecoming parade.

A few seniors got their first taste of the concession stand work they'll be doing all this year Friday at the scrimmage. Seniors are also busy selling senior calendars during this last possible week.

The Pipers put up a good fight against the Aspermont Hornets Friday night, and are expected to make a successful showing against the Rottan Yellowhammers Friday night. The best of luck goes to the team and coaching staff for a victorious season.

Members of the marching green are making their first public showing tomorrow night. All members of the band are hoping the freshmen (and upperclassmen!) will remember which is their left foot and which end of the horn belongs in their mouth! After long hours of practice, the Piper band is expected to have a very successful year.

The first pep rally of the season will be held Friday morning. Spirits should be reaching a climax all day for the clashing of the Pipers and the Yellowhammers.

Annual sales continue until September 20. Each class has selected a Piper Queen nominee. The queen will be determined by the highest percentage of annuals sold by a class. The nominees are Dianna Crowley, seniors, Wendy Russell, juniors, Debbie Hardaway, sophomores, and Jimmie Lou Bishop, freshmen.

Only longer staples of cotton are combed.

**FIGHTING LUMBERJACK** -- Quarterback Robert Pearce will be playing for the Stephen F. Austin State College Lumberjacks in Nacogdoches this fall. Pearce will be teamed up with flanker Henry Smith—a combination that set records for Cisco Junior College. The Lumberjacks will open Saturday with Angelo State College's Rams.

## TV COMMENTARY

HERB EDELMAN who is co-starring with Bob Deaver on "The Good Guys," a CBS production, was the very funny telephone man in "Barefoot in the Park."

ANOTHER YOUNG MAN who seems to be getting a break is Robert Brown who will be seen over ABC in "Here Come the Brides." He was reared in New York but was born on the Isle of Skye.

THE DEMOCRATIC CONVENTION replaced many of the prime time shows the last week of August and provided excitement on the inside and outside of the convention hall. The Press appeared to be most unhappy over the whole set up and to the restraint applied to their reporters. However, we must remember that the media is very powerful, in that shots of events can be edited to conform to the personal ideas of the men who release the pictures and those which seem to be unfavorable can be cut out.

THE LOST MAN will star Sidney Poitier and will be directed by Robert Alan Aurthur.

JONATHAN WINTERS will have as guests on his Christmas Show, Roy Rogers and Dale Evans. And speaking of Christmas offerings we under-

## LOUISA'S LETTER

Dear Louisa,

Why do some husbands think they have to act as critics of their wives instead of praising them for the things they do well. I have a good husband who is a good provider but he seems to think his role in life is to find out what I've done wrong and tell me about it. Really not things he thinks should be done differently. He doesn't get in the house before he starts.

Yesterday I had cooked a good dinner and had gone to the trouble of fixing things he liked. The children came in saying how good the dinner smelled and we were having a good time when he came in. The first thing he said was, "the living room certainly looks a mess, it seems like you could have the house looking decent by evening." It was just like a wet blanket being thrown over us.

What can I do about such a husband? If it wasn't that it would have been something else.

W.W. Aia,

Answer: There are two kinds of people in this world—those who look for the good in this world and others who look for faults in other people. You evidently

## Farmers Union Head to Speak in Stamford Friday Evening

Forest Creamer of Paducah has announced that Texas Farmers Union President Jay Naman will address the TFFU District 3 meeting in Stamford, Friday. The meeting will begin at 10:00 a.m. in the Cliff House Restaurant.

Creamer, Texas Farmers Union District 3 Director and member of the executive committee, stated that the meeting of all District 3 county Farmers Union officers and directors would be a working and planning meeting. The officials will hear reports on district membership, National Farmers Union Insurance, and discuss plans for annual county meetings. Membership drives will be discussed.

Naman's address will be "Farmers Union's Challenge for the Future." The farm leader will respond to questions after his address.

Counties in District 3 Farmers Union are Baylor, Childress, Cottle-King, Fisher, Foard, Hall, Hardeman, Haskell, Jones, Kent, Knox, Motley, Scurry, Shackelford,

Stonewall, Taylor, Throckmorton, and Wilbarger.

Generally considered the fastest growing farm organization in the state, Farmers Union has led the fight for legislation that would give the farmer greater bargaining power in the market place. Farmers Union led efforts that precipitated the "inverse payments on wheat exports" which has meant more income for wheat producers.

Creamer stated, "The meeting is open to the public and those interested in preserving the family farm are urged to attend."

### Comment On Sports

BY PETE FRITCHIE

Washington, D.C.--Green Bay's Packers are already missing the stern, kind hand of little Vince Lombardi, the taskmaster who moulded the Packers into an awesome pro machine which won three straight league championships and the first league playoffs.

That became apparent when the Packers lost two exhibition games in succession, but it doesn't mean the Packers are finished for 1968. After all, the exhibition games don't count and the old pros on the squad aren't going to collapse all at once.

It's logical, however, to expect some decline for Green Bay, to expect some letdown. The dominance of the NFL Lombardi achieved in the last three years can't continue forever. It would be an exceptional coach who could continue such momentum for a fourth year, and that would also require a bit of luck.

Thus losses to New York's Giants and Chicago's Bears

sponsors, Mr. and Mrs. Don Davis, Mr. and Mrs. W. T. Johnson and Rev. and Mrs. Cecil Hardaway.

do not signify the beginning of the end for the Bears or a slap in the face on coach Phil Bengtson. The race in the NFL this year will be tighter, if only because some of the other teams are likely to be vastly improved.

Lombardi built his squad after many years of careful morale building, morale building that also included a strong dash of discipline. Green Bay's team play and team spirit in recent years reflected this long, patient effort. To transfer the harness to another coach, a harness which has so many personal and personality ties, is next to impossible.

Thus football fans shouldn't expect from the 1968 Packers the same performance they have seen in 1965, 1966 and 1967.

Horley Baker and Dick Baker of Duncanville visited with Mr. and Mrs. L. R. Andrews Labor Day weekend and also went dove hunting.

Choke Her  
"How's your car running?"  
"Not so good. I can't keep it throttled down."  
"How's your wife?"  
"Oh, she's about the same."

### Cotton Pickin's

ROLLING PLAINS COTTON GROWERS INC.

The U. S. Department of Agriculture will almost certainly call for a production goal of 15 million bales of cotton in 1969, according to Charles G. Bragg, Executive Vice President of Rolling Plains Cotton Growers, Inc. Bragg made the prediction at a meeting of managers and officers of area rural electric cooperatives August 27 in Abilene's Old Town Restaurant.

He pointed out that the carryover of cotton in this country on August 1, 1968 was only 6.3 million bales, the lowest since 1953. If U. S. D. A. estimates of production and consumption are correct, the carryover next August will be below 4 million, well below the reserve considered essential by the Congress and the Secretary of Agriculture.

"U. S. D. A. is estimating this year's crop at 10.9 million bales," Bragg said. "This plus the 6.3 million on hand and 100,000 bales normally imported would give a total U. S. supply of 17.3 million bales from which to satisfy domestic and export demands until August 1, 1969. Many cotton men in the trade and at the mills are guessing consumption at home, plus exports, at around 13.5 million, which if correct, will reduce the carryover to 3.8 million, less than 4 months supply."

"U. S. D. A. must declare marketing quotas and announce major details of the 1969 program by October 15 of this year," Bragg said. "And The Secretary of Agriculture has authority to make changes in the cotton program in at least 3 areas to bring about increased plantings."

The simplest change and the one that can be made without affecting other payments or provisions of the program, and therefore the most likely, is a lowering or elimination of voluntary diversion payments.

This payments was 6c per pound times projected yield times acreage voluntarily diverted in 1968. In 1967, the voluntary diversion payments was 10.78c per pound. This year, producers left out 22 acres of each hundred acres of allotment, compared to 33 acres diverted in 1967 at the higher price.

Also, the Secretary of Agriculture has the option to reduce or do away with mandatory diversion. This year producers were required to divert at least 5% of their allotments in order to qualify under the program. The maximum mandatory diversion is 12.5%, and in 1967, that was the diversion level for cooperators.

But if the Secretary requires no diversion at all he will be forced by the so-called Ellender amendment to raise either the price support or the CCC loan level. The Ellender amendment specifies that the loan plus the price support payment (made only on 65% of each producer's allotment) must equal 65% of parity on the "permissible" acreage.

If parity at the time provisions are announced in October remains at the current 44-

66c, and if the Secretary requires no diversion of acreage the price support payment for 1969 would have to be 14.3c per pound as compared to the 12.24c payment rate for this year, unless the loan rate is increased.

The law also requires a mandatory diversion payment of not less than 25% of parity, so if there is no mandatory diversion in 1969 the Government would save the 10.76c per pound on the 5% diversion that was required this

### Limit Grazing During Dry Period Specialist Urges

"Native grassland suffers during a dry period like that being experienced by many farmers and ranchers at present. For best use of perennial grasses only about one-half of the current seasons growth should be removed by livestock," stated Ernest L. Cowger, Soil Conservationist, assisting the California Creek Soil and Water Conservation District.

The leaves of plants, in the presence of sunlight, make food to be used by the entire plant.

Healthy plants, with good root systems, must have good leaf development. Leaves also shade the soil, break the beat of the raindrops and when mature, fall to the ground and decay adding fertility to the soil. Well developed grass roots permit deep penetration of more water into the soil and retard water runoff and soil erosion of grassland.

"Plans should be made immediately to plant annual crops for winter grazing. Small grains such as wheat, oats and rye can be planted on whole fields and in the bare strips of summer crops to provide extra grazing and also cover and green manure for the land," Cowger said.

Cover crops prevent wind

year. Even if growers are required to divert 5% of allotments, the higher parity in 1969 would push price support payments up to 13.6 cents per pound, assuming that the loan level is not raised.

The third change which may be made, Bragg said, is an increase in the loan price. This would allow the Secretary to reduce the direct payment, but would increase the guaranteed price to the farmer for his entire production, thus encouraging more plantings.

and water erosion and will conserve additional rain water over that used when properly managed. Surface soil moisture is usually lost by evaporation through cultivation and by blowing winds where no cover crops are grown.
